TUESDAY EVENING, DEC. 8, 1896.

The greatest taxpayer is tobacco.
In the last twenty seven years this pro-
duct has paid a tribute of a billion dol-
lars to Uncle Sam alone.

MANY people of El Paso patronize
the heartless sport of bull fighting that
is in vogue in Juarez, just across the
river, down there. Such bloodthirsty
sport as this will gradually lead to foot
ball.

CATRON received 17,017 votes for
delegate to congress and thus far not
more than 17,000 people of New
Mexico have intimated a desire for
federal office. What's the matter, that
these seventeen people are so slow to
make their wants known?

It is estimated that twenty-two acres
of land are necessary to sustain one
man on fresh meat. The same space
of land, if devoted to wheat culture,
would feed forty-two people; if to oats,
eighty-eight; potatoes, Indian corn
and rice, 176, and if to plantain or
bread-tree, over 6,000 people.

FUN is poked at the German emperor
because he writes music, draws and
indulges in such gentle arts. He un-
doubtedly cherishes no illusions as to
his skill in these things, but does them
to amuse himself and relax his mind
from the wearisome and annoying af-
fairs of state. He is not alone in his
theory.

OLNEY NEWELL, ex editor and pro-
prietary of the Trinidad, Colo., Daily
News, ex-secretary of the Denver cham-
ber of commerce and an all round
good fellow, is a candidate for the sec-
retaryship of the board of public char-
ities and corrections in the city of
mountains and plains. His wife aspi-
red to be the nominee for state superin-
tendent of public instruction, on the
Colorado republican ticket, last fall.

SANTA FE is coming to the front
with some candidates for federal office
under the incoming administration.
THE OPTIC hears that ex-Governor
Prine is a candidate for governor, that
Charles Spiess and Eugene Fiske are
candidates for the United States at-
torneyship, Mr. McPherson, at present
stenographer for the court of private
land claims, is a candidate for sec-
retary of the Territory, Mr. Hill and Mr.
Nusbaum are candidates for postmas-
ter, Larkin G. Read for register of the
United States land office, ex-Surveyor
General Hobart and Philip Harrison
are after the surveyor general's office,
and so on and so forth. Mr. Fiske
claims to have the support of General
Law Wallace and Mr. McPherson and
Mr. Hill have a friend in Mr. Madden,
Methodist minister at the ancient, who
claims to stand close to the president-
elect. General Hobart has a brother
who is editor of the Chicago Railway
Age, who will support him, and Mr.
Marron has some Michigan influence.
The more the merrier, gentlemen; start
in and may the best man win. But it
is also said in Santa Fe, no free silver
man and no man who voted against
Delegate Catron need apply. The fu-
ture will tell what's what in these
cases.

OUR EASTERN FRIENDS.
Of the admission of more Territories,
the Springfield Republican remarks
that "the republican party in the coun-
try is in no mood to increase the num-
ber of 16 to 1 advocates in the senate
of the United States, nor has the in-
vestment in new states been such a
success that the republicans will be
anxious to continue it with no party
advantages in sight." That ill-natur-
ed item is all due to the fact that most
of the new western states voted at the
late election for the re-monetization of
silver, says the Salt Lake Tribune.
Was that so serious a crime? Has not
the republican party advocated that at
every presidential election for the past
sixteen years, prior to the last one?
Have not both parties vied with each
other in their convention and platforms
in assuring the people of the absolute
need of silver re-monetization, and of
their determination to bring it around?
Are the men of the west of that class
of which a Massachusetts newspaper
has any right to say that their presence
in the Union is not a success? There
are more people in Massachusetts, of
course, than there are in any western
state, but nearly half of them are made
up of foreigners, who have only been
residents there a few years. Are they
any more apt to be right than the sons
of the men of the eastern states, who
have come west to try to subdue a
wilderness?

The east continues to publish those

sort of items, and at the same time to
bellow anything like a sectional spirit.
The truth is, there has never been a
moment of time since the organization
of the country that New England has
not been vindictive, selfish and sectional.
Its idea of a perfect union is to
agree with Massachusetts, and when
the people of any state dare to differ
with the ruling sentiment of the money-
changers of Massachusetts, then they
are unwelcome and they are no longer
a success. We expect to see Massa-
chusetts strong for free silver just as
soon as the masses of her people obtain
the proper information to vote intelli-
gently on the subject. They haven't
it now, but we believe they will have it
in spite of the press that misleads them
and the interest-gatherers who flatter
their vanity by telling them they are
more honest than the bad men of the
west. It is a great pity that there
cannot be a great silver mine found
cutting its way through the mountains
of New Hampshire and Vermont. It
would make all New England anxious
for free silver within twelve months,
for its presence would make them study
and understand the silver question.

GUNS OF MILLIONAIRES.
Good Sport to be Provided for Them
in New Mexico in a Private
Game Preserve.

From the Denver Republican.
The prospect is fair for the estab-
lishment of a private game preserve in
New Mexico, near the Colorado line.
A few days ago, the agent for a syndi-
cate of New York millionaires was in
Denver, on his way east, and while
here gave the details of the propo-
sition. The agent had just returned
from making a thorough examination
of the ground, with especial reference
to its adaptability for a preserve for
all kinds of wild game and fish, for
the amusement of the men to whom
hunting in the Rocky mountains is too
much of a hardship, unless there is a
comfortable club house, with all the at-
tenuations of luxurious civilization within
easy reach. The west end of the Beau-
tiful and Miranda grant, now owned by
the Maxwell land grant company, is
the site that has been chosen by the
agent, and will be recommended to the
proposed purchasers.

This western branch of the million-
aire's club proposes to erect a handsome
and commodious club house with ac-
commodations for fifty or sixty people,
and the site of the house has been
chosen on one of the highest points in
the tract, overlooking the high mesa
for many miles eastward, while on the
west is given a view of a beautiful
park traversed by a large trout stream
and terminating on the west in a moun-
tain gorge, through which the water
comes tumbling over the rock, falling
over precipices and swirling around
high cliffs in the most approved style
of the romantic school. On the north
and the south of the building site are
high peaks, some of them above timber-
line, which are said to be favorite re-
sorts of bear, mountain lions and other
carnivora.

WELL ADAPTED TO GAME.
The entire tract comprises about
200,000 acres, a little more than 300
square miles, and embraces land of
every description; fertile meadows,
beautiful parks, heavily wooded heights
and rugged peaks, so that every de-
scription of wild game can find a suit-
able resting place within its limits.
The location selected ranges from the
foothills to the summit of the Ratón
range, and is nearly square. It is to
be surrounded with a wire fence, with
the wires close enough to prevent the
exit of a fawn, and strong enough to
prevent the onset of a buffalo. It will
require about twenty-five miles of
fencing to surround the enclosure, and
the estimated cost of fencing is \$30,000.
When the tract is enclosed it will
be stocked with deer, antelope, elk,
buffalo, grouse, pheasants, quail,
etc., while convenient ponds will be
provided for ducks, geese and waders.

LOGGERS AT VARIOUS POINTS.
As the hunters will never be more
than a dozen miles from the club
house, there will be no danger of their
being lost, but in order to provide
against any possible accident in the
event of the hunters being lost away
by the excitement of the chase until
night, several lodges will be
erected at convenient points, provided
with sleeping apartments, and during the
season stocked with bedding and food,
fuel being plentiful in every direction.
Each of these lodges is to be connected
with the club house by telephone, and
a system of electric lights will embrace
all the houses, the power for which
will be generated by a Pelton water
wheel located in the gorge. During
the hunting season the attendants will
be at each of the lodges to provide for
the wants of benighted hunters, and
horses will be on hand at all the lodges.
A physician will be on hand in case of
necessity and ample provision will be
made for servants' quarters. In fact,
everything will be done to provide the
guests with all the comforts of home,
while at the same time giving them the
best opportunities attainable for hunt-
ing, fishing, or enjoying the beauties of
nature without exertion. It is esti-
mated that not less than \$500,000 will
be expended upon the scheme, which
will include the purchase price of the
land and the erection of the improve-
ments. A committee of the projectors
will come out between now and next
spring and if the site selected is ap-
proved, the construction of the fence
will be commenced early next year.

Why Have You
been stricken with disease while your neigh-
bor escaped, or vice-versa? Both were alike
exposed, but in one case the disease germs
did not find their way into the blood and weak
system, while in the other, the blood was
kept pure by Host's Sarsaparilla, and the
body was in a condition of good health.
Blood's purity is purely vegetable and does
not purge, pain or gripe. Sold by all druggists.

J. G. Shipley and wife, parents of
Deputy Probate Clerk Shipley, of
Grant county, arrived at Silver City
from Indianapolis, and will become
permanent residents there.

A New Mexico Woman in Denver.
Mrs. Ada Morley Jarrett, of Datil,
Socorro county, has been in Denver
several days, on route for Boulder,
Colo., where she has some matter in
litigation. It having become quite
generally known that her lonely abode
in a canon had been the hiding place,
so to speak, of Francis Schliatter, "the
healer," for three months, last winter,
she was persuaded into delivering two
talks to Denver audiences on Schliatter,
whom she verily believes to be a diabol-
ically blessed and to whom she refers as a
strange and mysterious man. He left
her place eight months ago, since which
time not a word has been heard from
him. The Denver press, notably the
News, woefully misquoted what Mrs.
Jarrett had to say about "the healer"
and then denied her the courtesy of a
word of correction. The statement that
she was or would be out of Albu-
querque was distorted from idle, in-
cidental remarks that dropped from her
lips in familiar conversation with ear-
distance of an ambitious and irrepressi-
ble newspaper reporter with note book
in hand. Mrs. Jarrett is the authorized
compiler of the life of Francis Schliatter,
the data for the little work having been
furnished her by the truly marvel-
ous man during his retreat at her home.
One book of the kind has already been
issued by a Denver man, price twenty-
five cents, but it was gotten out with-
out the knowledge or consent of the
subject.

None But Ayer's at the World's Fair.
Ayer's Sarsaparilla enjoys the ex-
traordinary distinction of having been
the only blood purifier allowed an ex-
hibit at the World's fair, Chicago.
Manufacturers of other Sarsaparillas
sought by every means to obtain a
showing of their goods, but they were
all turned away under the application
of the rule forbidding the entry of
patent medicines and nostrums. The
decision of the World's fair authorities
in favor of Ayer's Sarsaparilla was in
effect as follows: "Ayer's Sarsaparilla
is not a patent medicine. It does not
belong to the list of nostrums. It is
here on its merits."

George Beebe, A. Martini, Fritz
Kraeger and Herman Joshiak were sum-
moned as witnesses on the Mosman
gold nugget case, before Judge Wal-
lace, of Baldy, last Saturday, but as
witness fees were not guaranteed, they
refused to obey the mandate of the
court.

Seems as if con-
sumption always
comes from the
lungs and is the
most fatal of all
diseases. Many
times we have
seen people who
were in the best
of health, and
suddenly they
were stricken
down. It would
be strange if med-
ical science did not
make some progress.
The telegraph and
phone, the phonograph, the electric light—
all were once impossible, and once it was
impossible to cure consumption. That was
before the time of Dr. Pierce's Golden Med-
ical Discovery. Taken according to direc-
tions, this standard remedy will cure 98 per
cent of all cases of consumption. Consump-
tion is caused and fostered by impurity in
the blood. It is cured by purity and rich-
ness of the blood—surely, certainly cured
by the "Medical Discovery." It builds up
solid healthy flesh and vigorous strength.
Dr. Pierce's Common Sense Medical Adviser,
a book giving medical facts, profusely illus-
trated, will be sent free on receipt of one-cent stamp
to cover postage only. Address, World's Dis-
pensary Medical Company, Buffalo, N. Y.
